

Take on Tobacco!

A Guide to the
Certified Tobacco Educator
Examination

Take on Tobacco!

The Certified Tobacco Educator Designation

The Certified Tobacco Educator (CTE) credential recognizes healthcare professionals who provide tobacco prevention and cessation services to their clients. This new credential demonstrates to your clients, peers and supervisors that you have completed an approved foundational course and tobacco cessation training programs in both health education and tobacco cessation. The first examination for the Certified Tobacco Educator credential will be held in 2014. The first exam will be open to healthcare professionals who have completed an approved foundational course and tobacco cessation training programs in both health education and tobacco cessation. For those that have not yet taken a comprehensive tobacco training program, courses and study material are still in development. We expect that the new exam, early in 2015, in time to challenge the June 2015 CTE exam.

The First Examination

For those that have not yet taken a comprehensive tobacco training program, courses and study material are still in development. We expect that the new exam, early in 2015, in time to challenge the June 2015 CTE exam.

Take on Tobacco!

The Certified Tobacco Educator Designation

The Certified Tobacco Educator (CTE) credential recognizes healthcare professionals who provide tobacco prevention and cessation services to their clients. This new credential demonstrates to your clients, peers and supervisors that you have the competencies to provide comprehensive, evidence-informed care in tobacco. The CTE credential is based on two sets of competencies: the enhanced foundational education competencies and the tobacco education competencies.

Certification Process

The process to certification will be similar to other CNRC credentials.

CTE Examinations

The next examination is scheduled for Friday, November 13th, 2026.

Requirements to Challenge the CTE Exam

If you already hold a current CNRC credential (i.e. CRE, CAE, CCE)

You are **not required** to take a foundational health education course. However, the new foundational health education competencies are significantly different from the education content in the CRE, CAE and CCE learning objectives. You will still be evaluated on the foundational health education competencies on the CTE exam. As this content is so different, we **highly recommend** that you complete a new foundational health education course and purchase the CNRC foundational health education workbook.

You must complete one of the following tobacco education programs:

Primary Care Alberta

(For Alberta residents only)

Email: tvcp@primarycarealberta.ca

Website: [Primary Care Alberta-Public Access](#)

On July 1, 2025 the Tobacco, Vaping & Cannabis program under Promoting Health transitioned from Alberta Health Services to Primary Care Alberta.

COURSES REQUIRED

- 1 Tobacco Basics
- 2 Brief Tobacco intervention
- 3 Intensive Tobacco Interventions
- 4 Tobacco Cessation Pharmacology
- 5 Applied Tobacco Intervention

The TEACH Project

Centre for Addiction and Mental Health (CAMH)

Core Course

416 535-8501 ext. 31600

		Tobacco Programs and Systems	2-5%

Preparing for the Examination

1. All candidates must review the competencies for Certified Tobacco Educators – the foundational health education competencies and the new tobacco cessation and prevention competencies.
 - a. Foundational Health Education Competencies:
<https://cnrchome.net/assets/cnrc-foundational-health-education-competencies.pdf>
 - b. Core Competencies for Tobacco Educators
<https://cnrchome.net/assets/cnrc-tobacco-education-competencies.pdf>
2. All candidates must review and be familiar with the Canadian and US clinical guidelines for smoking cessation.
 - a. CAN-ADAPTT Canadian Smoking Cessation Clinical Practice Guideline:
https://intrepidlab.ca/en/canadaptt/PublishingImages/Pages/CAN-ADAPTT-Guidelines/CAN-ADAPTT%20Canadian%20Smoking%20Cessation%20Guideline_website.pdf
 - b. Treating Tobacco Use and Dependence: 2008 Update:
<https://www.ncbi.nlm.nih.gov/books/NBK63952/>
3. The CTE Foundational Health Education and Tobacco Education Workbooks/study guides are available for purchase on the CNRC website.

We wish you the best of luck on your examination and look forward to welcoming you as a Certified Tobacco Educator! Please do not hesitate to contact the CNRC office if you should have any additional questions.
